

# RenamerPlus Privacy Policy

**Last Updated: June 2, 2025**

## Introduction

This Privacy Policy applies to RenamerPlus ("the Application"), a Windows desktop application designed to rename files. This policy outlines our practices regarding the collection, use, and disclosure of information when you use our Application.

## Information Collection

RenamerPlus is designed with privacy in mind. The Application:

- Does not collect any personal information
- Does not track user activity
- Does not transmit any data to external servers
- Does not require internet connection to function
- Does not access any files beyond those explicitly selected by the user for renaming purposes

## Local File Access

RenamerPlus requires access to files and folders that you explicitly select for renaming operations. The Application:

- Only accesses files and folders that you specifically choose
- Does not scan, index, or catalog your entire file system
- Does not retain information about files after the renaming operation is complete
- Does not upload file names or any other file metadata to any server

## Third-Party Services

RenamerPlus does not integrate with any third-party services, APIs, or libraries that would collect or process user data.

## Links to Other Sites

The Application may contain links to other sites. If you click on a third-party link, you will be directed to that site. Note that these external sites are not operated by ApApps. Therefore, we strongly advise you to review the Privacy Policy of these websites. We have no control over and assume no responsibility for the content, privacy policies, or practices of any third-party sites or services.

## Changes to Files

The sole function of RenamerPlus is to rename files as directed by the user. The Application:

- Does not modify file contents
- Does not read file contents beyond metadata required for renaming
- Does not create copies of files unless explicitly requested as part of a renaming operation

## Data Security

Since RenamerPlus does not collect, store, or transmit any personal data, there are no data security concerns related to remote data storage or transmission.

## Changes to This Privacy Policy

We may update this Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on the Application's website or distribution page. You are advised to review this Privacy Policy periodically for any changes.

## Disclaimer

RenamerPlus is provided "as-is" without any warranty of any kind, either expressed or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. The author is not responsible for any damages or losses arising from the use or inability to use the Application.

## Contact Us

If you have questions, concerns, or requests regarding this Privacy Policy or your data:
